Subject Index

Agonistic behaviour
The effect of group size and space allowance on the agonistic and spacing behavior of cattle 127
"Bait-shyness"
"Poison-shyness" and "bait-shyness" developed by wild rats (*Rattus rattus* L.). I. Methods for eliminating "shyness" caused by barium carbonate poisoning 89
Behaviour
Effects of early handling on later open-field behaviour in rabbits 157
Effects of rain and fly harassment on the feeding behaviour of free-ranging feral goats 31
Feeding station behaviour of free-grazing sheep 259
Behavioural responses
The effect of design of tether and stall housing on some behavioural and physiological responses related to the welfare of pregnant pigs 1
Bulls
Frequency of masturbation and time budgets of dairy bulls used for semen production 217
Homosexual and social behaviours of young bulls of different geno- and phenotypes and plasma concentrations of some hormones 101
Cattle
The effect of group size and space allowance on the agonistic and spacing behavior of cattle 127
Coprophagy
Coprophagy by foals: recognition of maternal feces 267
Cows
Orientation to the sun of British and exotic breed cross cows during the winter 115
The effect of forage supplementation, herbage height and season on the ingestive behaviour of dairy cows 203
Crushing
Preliminary trials of a sound-activated device to reduce crushing of piglets by sows 23
Daylength
The effect of daylength and weather conditions on the time spent by western grey kangaroos (*Macropus fuliginosus*) on farmland 353
Domestic ewes
Social preferences of domestic ewes for rams (*Ovis aries*) 287
Early lactation
Lethargy and low water intake by sows during early lactation: a cause of low piglet weight gains and survival? 13
Equine dominance
Evaluating equine dominance in draft mares 55
Ewes
Ram mating preferences for woolly rather than recently shorn ewes 301
Fly harassment
Effects of rain and fly harassment on the feeding behaviour of free-ranging feral goats 31
Foals
Coprophagy by foals: recognition of maternal feces 267
Food intake
Food intake by free-grazing sheep and resource productivity 239

Food needs
Methodology for measuring hunger and food needs using operant conditioning in the pig 273
Forage supplementation
The effect of forage supplementation, herbage height and season on the ingestive behaviour of dairy cows 203
Free-ranging predators
Ethinyl estradiol and generalized aversions to eggs among free-ranging predators 313
Generalized aversions
Ethinyl estradiol and generalized aversions to eggs among free-ranging predators 313
Grazing distribution
Grazing distribution of sheep and kangaroos in a semi-arid woodland 343
Handling
Effects of early handling on later open-field behaviour in rabbits 157
Homosexual behaviour
Homosexual and social behaviours of young bulls of different geno- and phenotypes and plasma concentrations of some hormones 101
Hunger needs
Methodology for measuring hunger and food needs using operant conditioning in the pig 273
Ingestive behaviour
The effect of forage supplementation, herbage height and season on the ingestive behaviour of dairy cows 203
Inter-individual distances
Inter-individual distances and orientation in laying hens housed in groups of three in two different-sized enclosures 325
Kangaroos
Grazing distribution of sheep and kangaroos in a semi-arid woodland 343
The effect of daylength and weather conditions on the time spent by western grey kangaroos (*Macropus fuliginosus*) on farmland 353
Kinetic behaviour
The phenomenon of pandiculation in the kinetic behaviour of the sheep fetus 169
Lambs
Fostering lambs by odor transfer: two-lamb substitution 247
Laying hens
Inter-individual distances and orientation in laying hens housed in groups of three in two different-sized enclosures 325
Lethargy
Lethargy and low water intake by sows during early lactation: a cause of low piglet weight gains and survival? 13
Milk consumption
Suckling behaviour and milk consumption in newborn piglets as a response to sow grunting 227
Operant conditioning
Methodology for measuring hunger and food needs using operant conditioning in the pig 273
Orientation
Inter-individual distances and orientation in laying hens housed in groups of three in two different-sized enclosures 325
Orientation to the sun of British and exotic breed cross cows during the winter 115

Pandiculation
The phenomenon of pandiculation in the kinetic behaviour of the sheep fetus 169
Physiological responses
The effect of design of tether and stall housing on some behavioural and physiological responses related to the welfare of pregnant pigs 1
Plasma concentrations
Homosexual and social behaviours of young bulls of different geno- and phenotypes and plasma concentrations of some hormones 101
"Poison-shyness"
"Poison-shyness" and "bait-shyness" developed by wild rats (*Rattus rattus* L.). I. Methods for eliminating "shyness" caused by barium carbonate poisoning 89
Rabbits
An analysis of the open-field performance of sub-adult rabbits 147
Effects of early handling on later open-field behaviour in rabbits 157
Ram mating
Ram mating preferences for woolly rather than recently shorn ewes 301
Rams
Social preferences of domestic ewes for rams (*Ovis aries*) 287
Reindeer
Social relationships of reindeer *Rangifer tarandus* during rut: implications for female choice 183
Resource productivity
Food intake by free-grazing sheep and resource productivity 239
Semen production
Frequency of masturbation and time budgets of dairy bulls used for semen production 217
Sheep
Food intake by free-grazing sheep and resource productivity 239
Grazing distribution of sheep and kangaroos in a semi-arid woodland 343
Feeding station behaviour of free-grazing sheep 259
The phenomenon of pandiculation in the kinetic behaviour of the sheep fetus 169
Social behaviour
Homosexual and social behaviours of young bulls of different geno- and phenotypes and plasma concentrations of some hormones 101
Social preferences
Social preferences of domestic ewes for rams (*Ovis aries*) 287
Social relationships
Social relationships of reindeer *Rangifer tarandus* during rut: implications for female choice 183
Sound-activated device
Preliminary trials of a sound-activated device to reduce crushing of piglets by sows 23
Sows
Influence of neighbours on stereotypic behaviour of tethered sows 137
Spacing behaviour
The effect of group size and space allowance on the agonistic and spacing behavior of cattle 127
Stereotypic behaviour
Influence of neighbours on stereotypic behaviour of tethered sows 137
Suckling behaviour
Suckling behaviour and milk consumption in newborn piglets as a response to sow grunting 227

Tether and stall housing
The effect of design of tether and stall housing on some behavioural and physiological responses related to the welfare of pregnant pigs 1
Time budgets
Time budgets in Red Junglefowl as a baseline for the assessment of welfare in domestic fowl 77
Two-lamb substitution
Fostering lambs by odor transfer: two-lamb substitution 247
Weaning
Weaning in calves: its effects on social organization 43
